

CATCHING PUBLIC TRANSPORT INTO THE OFFICE?

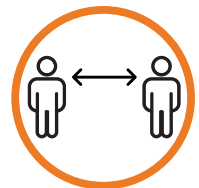

There is increased cleaning across all public transport, buses now board via the rear door and services in SEQ are cashless.

You can play your part by following these tips for travelling on public transport:

< Be prepared for **cashless services** – set-up auto top-up for easy contactless payments

< **Leave a gap** – where possible, leave a gap between you and others at stops, stations and on-board services, or wait for a later service if you can.

< **Keep it clean** – stay home if you're unwell and considering wearing a face mask if you can't maintain social distancing.

< **Stay up to date** –
